### **Presentation Details:**

Date: Tuesday, January 10, 2023

Time: 5:30 p.m. PST

Location: The Westin St. Francis – Mission Bay (32nd Floor)

### **About Tvardi Therapeutics**

Tvardi is a privately held, clinical-stage biopharmaceutical company developing small molecule inhibitors of STAT3, a key regulatory protein positioned at the intersection of many signaling pathways integral to the survival and immune evasion of cancer cells. STAT3 also plays a central role in the pathogenesis of many inflammatory and fibrotic diseases. The company's lead product, TTI-101, is completing a first-in-man Phase 1 trial of relapsed/refractory patients with advanced solid tumors. To date, TTI-101 monotherapy has been well-tolerated and has clinical activity across a broad range of tumors including multiple durable radiographic objective responses. The company has now initiated Phase 2 clinical programs in hepatocellular carcinoma, metastatic breast cancer, and idiopathic pulmonary fibrosis.
